Missed or Failed Appointment Policy

Dr. Kimra Hall & Associates take great pride in offering quality, comprehensive care for every patient. We are careful in scheduling each appointment so that each patient receives their recommended treatment in a reasonable amount of time while still accommodating individual needs. In order to consistently provide this type of care, it is important for our patients to be on time for their scheduled appointments so we can keep our schedule running smoothly.

Based upon this practice philosophy, Dr. Kimra Hall & Associates has adopted a **policy regarding no-show** or last minute cancellations. When an appointment is cancelled with **less than 24 hours notice** or if the appointment is not honored, you will be charged a **$50 an hour missed appointment fee**. You will be required to pay this fee prior to scheduling future appointments.

Missed appointments can result in dismissal from the practice.

If you move or change phone numbers without informing our office, we will be unable to contact you in order to confirm an appointment. In such an instance, your appointment time will not be held for you.

If you are excused as a patient, we will continue to provide emergency services for 45 days to allow you to find another dentist. My signature above on this page acknowledges that I have had full opportunity to read the "Missed or Failed Appointment Policy".

DENTAL TREATMENT CONSENT FORM

For your convenience, we make available this **generalized dental consent form** for your review and signature. Please do not hesitate to ask our dental staff any questions you may have. For more detailed information, please visit our website, www.drkimrahall.com

1. DRUGS AND MEDICATIONS
I understand that antibiotics and analgesics and other medications can cause allergic reactions causing redness and swelling of tissues, pain, itching, vomiting, and/or anaphylactic shock (severe allergic reaction).

2. CHANGES IN TREATMENT PLAN
I understand that during treatment it may be necessary to change or add procedures because of conditions found while working on the teeth that were not discovered during examination, the most common being root canal therapy following routine restorative procedures.

3. REMOVAL OF TEETH
I understand that If teeth are savable/restorable, the alternatives to removal of teeth are root canal therapy, crowns, and periodontal surgery, etc. I also understand removing teeth does not always remove all the infection, if present, and it may be necessary to have further treatment. I understand the risks involved in having teeth removed, some of which are pain, swelling, spread of infection, dry socket, loss of feeling in my teeth, lips, tongue and surrounding tissue (Paresthesia) that can last for an indefinite period of time (days or months) or fractured jaw. I understand I may need further treatment by a specialist or even hospitalization if complications arise during or following treatment, the cost of which is my responsibility.

4. CROWNS, BRIDGES AND CAPS
I understand that sometimes it is not possible to match the color of natural teeth exactly with artificial teeth. I further understand that I may be wearing temporary crowns, which may come off easily and that I must be careful to ensure that they are kept on until the permanent crowns are delivered. I realize the final opportunity to make changes in my new crown, bridge, or cap (including shape, fit, size, and color) will be before cementation.

5. DENTURES, COMPLETE OR PARTIAL
I realize that full or partial dentures are artificial, constructed of plastic, metal, and/or porcelain. The problems of wearing these appliances include looseness, soreness, and possible breakage. I realize the final opportunity to make changes in my new dentures (including shape, fit, size, placement, and color) will be the "teeth in wax" try-in visit. I understand that most dentures require relining approximately three to twelve months after initial placement. The cost for this procedure is not included in the initial denture fee.

6. ENDODONTIC TREATMENT (ROOT CANAL)
I realize there is no guarantee that root canal treatment will save my tooth, and that complications can occur from the treatment, and that occasionally metal objects are cemented in the tooth or extend through the root, which does not necessarily affect the success of the treatment. I understand that occasionally additional surgical procedures may be necessary following root canal treatment (apicoectomy).

7. PERIODONTAL LOSS (TISSUE & BONE)
I understand that serious gum problems can lead to bone infection or bone loss and that it can lead to the loss of my teeth. Alternative treatments include gum surgery, replacements and/or extractions. I understand that undertaking any dental procedures may have a future adverse effect on my periodontal condition.

8. LOCAL ANESTHESIA
I understand that Anesthetic is utilized to numb tissue for dental surgical procedures. Some patients may experience temporary increased heart rate, allergy, soreness, nerve or blood vessel bruising, tingling, or numbness which may very infrequently be indefinite, and trauma after the procedure from being numb.

I understand that dentistry is not an exact science and that, therefore, reputable practitioners cannot guarantee results. I acknowledge that no guarantee or assurance has been made to me by anyone regarding the dental treatment that I have requested and authorized for myself or my minor child. I have had full opportunity to discuss and ask questions regarding the dental treatment, and all questions have been answered to my satisfaction.
